BCG Matrix Analysis

The BCG Matrix is a business method that was created by the Boston Consulting Group in the 1970's. This business method bases its theory on the life cycle of products. Also known as the Boston Box or Grid, BCG Charts are divided into four types of scenarios, Stars, Cash Cows, Dogs and Question Marks. The Stars is the scenario where there is the optimum situation of high growth and high share, this method requires an increased investment due to the continuous growth.

BCG Matrix

The growth share matrix was created in 1968 by BCG's founder, Bruce Henderson. It was published in one of BCG's short, provocative essays, called Perspectives. At the height of its success, the growth share matrix was used by about half of all Fortune 500 companies; today, it is still central in business school teachings on strategy.
