Octobre 2018 - n°748 | Cahiers du Cinéma

par Stéphane Delorme . On a pris connaissance cet été du rapport Schwartz, plan de sauvetage de la distribution de la presse. Un avant-projet de loi plein de mots qui font mal à l'intelligence comme « fluidité », « modernisation » ou « résilience ». Tout ce tissu hypocrite du « nouveau monde », qui ne masque qu'une lutte acharnée contre l'égalité, dans tous les domaines.

THEORY OF IMAGE AND SOUND - New York University

Cahiers du Cinema is the most prestigious and influential film journal ever published. An anthology devoted entirely to its writings, in English translation, is long overdue. The selections in this volume are drawn from the colorful first decade of Cahiers, 1951-1959, when a group of young iconoclasts rocked the world of film criticism with their provocative views on international cinema ...

Fragile yet powerful, macho yet transgressive, Jacques Audiard's films portray disabled, marginalised or otherwise non-normative bodies in constant states of crisis and transformation. Jacques Audiard is the first book on the cinema of one of the most important French directors working today. It studies his screenwriting background, his collaborative practices and his use of genre motifs alongside his reputation as a celebrated French auteur. Using the motif of border-crossing - both physical and symbolic - the book explores how Audiard's films construct and transcend boundaries of many forms. Focusing on the representation of the physical body, French society and broader transnational contexts, it reveals how Audiard's cinema occupies a space both within and beyond the imaginary of French cinema.

German cinema of the 1920s is still regarded as one of the 'golden ages' of world cinema. Films such as *The Cabinet of Dr Caligari*, *Dr Mabuse the Gambler*, *Nosferatu*, *Metropolis*, *Pandora's Box* and *The Blue Angel* have long been canonised as classics, but they are also among the key films defining an image of Germany as a nation uneasy with itself. The work of directors like Fritz Lang, F.W. Murnau and G.W. Pabst, which having apparently announced the horrors of fascism, while testifying to the traumas of a defeated nation, still casts a long shadow over cinema in Germany, leaving film history and political history permanently intertwined. *Weimar Cinema and After* offers a fresh perspective on this most 'national' of national cinemas, re-evaluating the arguments which view genres and movements such as 'films of the fantastic', 'Nazi Cinema', 'film noir' and 'New German Cinema' as typically German contributions to twentieth century visual culture. Thomas Elsaesser questions conventional readings which link these genres to romanticism and expressionism, and offers new approaches to analysing the function of national cinema in an advanced 'culture industry' and in a Germany constantly reinventing itself both geographically and politically. Elsaesser argues that German cinema's significance lies less in its ability to promote democracy or predict fascism than in its contribution to the creation of a community sharing a 'historical imaginary' rather than a 'national identity'. In this respect, he argues, German cinema anticipated some of the problems facing contemporary nations in reconstituting their identities by means of media images, memory, and invented traditions.

This book examines Gilles Deleuze's ideas about creativity in the context of lifelong learning, offering an original take on this important contemporary topic using cinematic parallels. Discussing Deleuze's difficult notion of 'counter-actualization' as a form of creative practice, it draws practical consequences for those across a diverse sector.

Like many national cinemas, the French cinema has a rich tradition of film musicals beginning with the advent of sound to the present. This is the first book to chart the development of the French film musical. The French film musical is remarkable for its breadth and variety since the 1930s; although it flirts with the Hollywood musical in the 1930s and again in the 1950s, it has very distinctive forms rooted in the traditions of French chanson. Defining it broadly as films attracting audiences principally because of musical performances, often by well-known singers, Phil Powrie and Marie Cadalanu show how the genre absorbs two very different traditions with the advent of sound: European operetta and French chanson inflected by American jazz (1930-1950). As the genre matures, operetta develops into big-budget spectacles with popular tenors, and revue films also showcase major singers in this period (1940-1960). Both sub-genres collapse with the advent of rock n roll, leading to a period of experimentation during the New Wave (1960-1990). The contemporary period since 1995 renews the genre, returning nostalgically both to the genre's origins in the 1930s, and to the musicals of Jacques Demy, but also hybridising with other genres, such as the biopic and the documentary.

This handbook brings together essays in the philosophy of film and motion pictures from authorities across the spectrum. It boasts contributions from philosophers and film theorists alike, with many essays employing pluralist approaches to this interdisciplinary subject. Core areas treated include film ontology, film structure, psychology, authorship, narrative, and viewer emotion. Emerging areas of interest, including virtual reality, video games, and nonfictional and autobiographical film also have dedicated chapters. Other areas of focus include the film medium's intersection with contemporary social issues, film's kinship to other art forms, and the influence of historically seminal schools of thought in the philosophy of film. Of emphasis in many of the essays is the relationship and overlap of analytic and continental perspectives in this subject.

Par son caractère exhaustif, cette bibliographie offre au praticien, au simple amateur, aussi bien qu'au chercheur spécialisé, la possibilité d'embrasser d'un coup d'oeil la quasi-totalité des ouvrages en français, concernant les spectacles, parus entre 1985 et 1995. This comprehensive bibliography of the performing arts lists almost 8000 French-language books, published between 1985 and 1995, and is a welcome work of reference for anyone interested in the subject.
