This report, unlike most other Law Commission reports, does not focus on reform of substantive law, but rather deals with the broader social issues of how housing problems arise and how they might be dealt with better. At the heart of the recommendations is the suggestion that all those providing housing advice and assistance should develop services based on a "triage plus" system. This has three elements: (1) Signposting: providing initial diagnosis of the problem and referral to the best route for resolution; (2) Intelligence gathering and oversight: increasing understanding of how problems arise; (3) Feedback: to improve decision-taking and prevent disputes arising. Another key proposal is that other means of resolving disputes, outside of formal adjudication, should be used wherever possible. An earlier report, "Renting homes" (Law Com. 297, Cm. 6781, ISBN 9780101678124) made recommendations for the simplification of current housing law and practice, and implementation of those proposals would improve the position in relation to disputes.

The Landlord ' s Guide to Minnesota Law addresses every landlord-tenant legal issue that is likely to arise over the course of a lease. From how to find a tenant to what to do once they leave, it is a practical and thorough legal analysis of what Minnesota landlords need to know about complying with the relevant federal, state and local laws. At the end of each chapter you ' ll find " Tips from a Tenant Attorney. " These tips offer more creative advice on how landlords can solve difficult legal situations or prevent them from ever occurring. Also included is our exclusive line-by-line analysis of the Minnesota State Bar Association ' s Model Residential Lease. Instead of guessing what your lease terms mean, this guide tells you why each term exists and how it applies to your situation. This book was written by practicing attorneys in Minnesota who work exclusively in landlord-tenant law. There are dozens of legal guides available online for landlords, but none of them focus on Minnesota statutes and regulations, and when it comes to landlord-tenant legal issues, state law is key. Both authors are currently practicing attorneys with over 25 years of experience in tenant landlord law, advising over 39,000 renters on HOME Line ' s tenant hotline. They also train a wide variety of audiences in tenant landlord law, including over 100 trainings to landlord groups throughout Minnesota.

In this report the Communities and Local Government Committee says the Government must stick to its long term house building targets, despite the credit crunch, but a greater proportion of the homes built should be social housing. The Committee is concerned that the £975 million borrowed by the Government from its 2010-11 budgets to build social rented housing now is not new money, and that the Government has been unable to say how that borrowing will be replaced. The Committee urges the Department for Communities and Local Government to: put pressure on the Treasury to ensure measures to revive the mortgage markets are implemented immediately; increase construction of new social housing, both to provide for housing need and as a means of maintaining capacity in the homebuilding industry whilst the market recovers; accelerate refurbishment programmes for social housing; acquire further social housing through the purchase of unsold stock and street properties; consider the purchase of unsold family homes which have been on the market for more than a year; encourage public sector bodies to make land available for the development of new homes. The report also urges the Government to do more to help those at risk of repossession by considering sanctions against lenders who repossess too quickly and by doing more to protect tenants and homeowners from unscrupulous landlords. An Office of Fair Trading recommendation for sale-and-rent back schemes should be implemented as a matter of urgency to protect the growing number of households falling behind in mortgage payments. The Committee would like to see more done to support housing associations, including increasing social housing grant where necessary.
