Subterfuge and assassination bring this thrilling series to an end. Despite the odds, the Imperium has triumphed. The orks have been defeated and the Great Beast is no more. Across the length and breadth of the galaxy, humankind celebrates its salvation, and relishes the prospect of a return of peace. But the war against the orks has riven the political bedrock of the Imperium, exposing its rotten core. One man, one powerful man, decides he has the solution, and launches a campaign of destruction so terrible that thousands of years later his actions will still be viewed with horror. And all the while, the true enemy watches and waits in the starless depths of space; an eternal evil that desires only to devour the souls of every living human soul in the galaxy.

The bestselling landmark account of the first emergence of the Ebola virus. Now a mini-series drama starring Julianna Margulies, Topher Grace, Liam Cunningham, James D'Arcy, and Noah Emmerich on National Geographic. A highly infectious, deadly virus from the central African rain forest suddenly appears in the suburbs of Washington, D.C. There is no cure. In a few days 90 percent of its victims are dead. A secret military SWAT team of soldiers and scientists is mobilized to stop the outbreak of this exotic "hot" virus. The Hot Zone tells this dramatic story, giving a hair-raising account of the appearance of rare and lethal viruses and their "crashes" into the human race. Shocking, frightening, and impossible to ignore, The Hot Zone proves that truth really is scarier than fiction.

The only thing you'll find on the summit of Mount Everest is a divine view. The things that really matter lie far below. – Peak Marcello After fourteen-year-old Peak Marcello is arrested for scaling a New York City skyscraper, he's left with two choices: wither away in juvenile Detention or go live with his long-lost father, who runs a climbing company in Thailand. But Peak quickly learns that his father's renewed interest in him has strings attached. Big strings. As owner of Peak Expeditions, he wants his son to be the youngest person to reach the Everest summit--and his motives are selfish at best. Even so, for a climbing addict like Peak, tackling Everest is the challenge of a lifetime. But it's also one that could cost him his life. Roland Smith has created an action-packed adventure about friendship, sacrifice, family, and the drive to take on Everest, despite the incredible risk. The story of Peak's dangerous ascent—told in his own words—is suspenseful, immediate, and impossible to put down.

BAPTISM BY FIRE Chris Ronnau volunteered for the Army and was sent to Vietnam in January 1967, armed with an M-14 rifle and American Express traveler's checks. But the latter soon proved particularly pointless as the private first class found himself in the thick of two pivotal, fiercely fought Big Red One operations, going head-to-head against crack Viet cong and NVA troops in the notorious Iron Triangle and along the treacherous Cambodian border near Tay Ninh. Patrols, ambushes, plunging down VC tunnels, search and destroy missions--there were many ways to drive the enemy from his own backyard, as Ronnau quickly discovered. Based on the journal Ronnau kept in Vietnam, Blood Trails captures the hellish jungle war in all its stark life-and-death immediacy. This wrenching chronicle is also stirring testimony to the quiet courage of those unsung American heroes, many not yet twenty-one, who had a job to do and did it without complaint--fighting, sacrificing, and dying for their country. Includes sixteen pages of rare and never-before-seen combat photos

The first book in the critically acclaimed Obsidian and Blood trilogy: Year One-Knife, Tenochtitlan the capital of the Aztecs. Human sacrifice and the magic of the living blood are the only things keeping the sun in the sky and the earth fertile. A Priestess disappears from an empty room drenched in blood. It should be a usual investigation for Acatl, High Priest of the Dead--except that his estranged brother is involved, and the the more he digs, the deeper he is drawn into the political and magical intrigues of noblemen, soldiers, and priests--and of the gods themselves... REVIEWS: " gripping mystery steeped in blood and ancient Aztec magic. I was enthralled." — Sean Williams 'An Aztec priest of the dead tries to solve a murder mystery, and finds that

Where To Download Death Zone Blood Bowl

politics may be even more powerful than magic. A vivid portrayal of an interesting culture in a truly fresh fantasy novel.' — Kevin J. Anderson 'Amid the mud and maize of the Mexica empire, Aliette de Bodard has composed a riveting story of murder, magic and sibling rivalry.' — Elizabeth Bear 'The world-building is exquisite and we *believe* we are transported to the 15th century Tenochtitlan and together with the superb voice they formed the main reason I enjoyed this book so much... Highly recommended... Ms. de Bodard is a writer to watch.' — Fantasy Book Critic

Considered by many the greatest war novel of all time, All Quiet on the Western Front is Erich Maria Remarque's masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another. . . . if only he can come out of the war alive. "The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure."—The New York Times Book Review

Presents recipes ranging in difficulty with the science and technology-minded cook in mind, providing the science behind cooking, the physiology of taste, and the techniques of molecular gastronomy.

Technology and increasing levels of education have exposed people to more information than ever before. These societal gains, however, have also helped fuel a surge in narcissistic and misguided intellectual egalitarianism that has crippled informed debates on any number of issues. Today, everyone knows everything: with only a quick trip through WebMD or Wikipedia, average citizens believe themselves to be on an equal intellectual footing with doctors and diplomats. All voices, even the most ridiculous, demand to be taken with equal seriousness, and any claim to the contrary is dismissed as undemocratic elitism. Tom Nichols' The Death of Expertise shows how this rejection of experts has occurred: the openness of the internet, the emergence of a customer satisfaction model in higher education, and the transformation of the news industry into a 24-hour entertainment machine, among other reasons. Paradoxically, the increasingly democratic dissemination of information, rather than producing an educated public, has instead created an army of ill-informed and angry citizens who denounce intellectual achievement. When ordinary citizens believe that no one knows more than anyone else, democratic institutions themselves are in danger of falling either to populism or to technocracy or, in the worst case, a combination of both. An update to the 2017 breakout hit, the paperback edition of The Death of Expertise provides a new foreword to cover the alarming exacerbation of these trends in the aftermath of Donald Trump's election. Judging from events on the ground since it first published, The Death of Expertise issues a warning about the stability and survival of modern democracy in the Information Age that is even more important today.
