The Treason of the Intellectuals by Benda Julien - AbeBooks

Benda understood that the stakes were high: the treason of the intellectuals signaled not simply the corruption of a bunch of scribblers but a fundamental betrayal of culture. By embracing the ethic of Callicles, intellectuals had, Benda reckoned, precipitated "one of the most remarkable turning points in the moral history of the human species.

The treason of the intellectuals & "The Undoing of Thought ...

Now the treason to which Benda referred was the desertion of the twentieth-century clerisy, in Benda's opinion, to the service of the State: for the clerisy should serve Truth, and truth only. The scholar was becoming an ideologue, won over to the adulation of Society by the prospect of power and the lure of creature-comforts, and the State would use the scholar and debase him.

The Treason of the Clerks - The Imaginative Conservative

Julien Benda, (born Dec. 26, 1867, Paris, France–died June 7, 1956, Fontenay-aux-Roses, near Paris), novelist and philosopher, leader of the anti-Romantic movement in French criticism, persistent defender of reason and intellect against the philosophical intuitionism of Henri Bergson. Benda graduated from the University of Paris in 1894.

by Julien Benda - Swans

Quotes about Julien Benda . For the intellectual class, expertise has usually been a service rendered, and sold, to the central authority of society. This is the trahison des clercs of which Julien Benda spoke in the 1920s. Expertise in foreign affairs, for example, has usually meant the legitimization of the conduct of foreign policy and, what ...

JULIEN BENDA LA TRAHISON DES CLERCS PDF

In 1927, Julien Benda published La Trahison des Clercs (The Treason of the Intellectuals), the short book that would become his most famous work. Benda was infuriated with intellectuals who allowed themselves to become cheerleaders for totalitarianism.

The Treason of the Intellectuals: Amazon.co.uk: Benda ...

Julien Benda's classic study of 1920s Europe resonates today. The "treason of the intellectuals" is a phrase that evokes much but is inherently ambiguous. The book bearing this title is well known but little understood. This edition is introduced by Roger Kimball. From the time of the pre-Socratics, intellectuals were a breed apart. They were non-materialistic knowledge-seekers who believed in a universal humanism and represented a cornerstone of civilized society. According to Benda, this all began to change in the early twentieth century. In Europe in the 1920s, intellectuals began abandoning their attachment to traditional philosophical and scholarly ideals, and instead glorified particularisms and moral relativism. The "treason" of which Benda writes is the betrayal by the intellectuals of their unique vocation. He criticizes European intellectuals for allowing political commitment to insinuate itself into their understanding of the intellectual vocation, ushering the world into "the age of the intellectual organization of political hatreds." From the savage flowering of ethnic and religious hatreds in the Middle East and throughout Europe today to the mendacious demand for political correctness and multiculturalism on college campuses everywhere in the West, the treason of the intellectuals continues to play out its unedifying drama.

If you're an actress or a coed just trying to do a man-size job, a yes-man who turns a deaf ear to some sob sister, an heiress aboard her yacht, or a bookworm enjoying a boy's night out, Diane Ravitch's internationally acclaimed The Language Police has bad news for you: Erase those words from your vocabulary! Textbook publishers and state education agencies have sought to root out racist, sexist, and elitist language in classroom and library materials. But according to Diane Ravitch, a leading historian of education, what began with the best of intentions has veered toward bizarre extremes. At a time when we celebrate and encourage diversity, young readers are fed bowdlerized texts, devoid of the references that give these works their meaning and vitality. With forceful arguments and sensible solutions for rescuing American education from the pressure groups that have made classrooms bland and uninspiring, The Language Police offers a powerful corrective to a cultural scandal.

In these six essays--delivered on the BBC as the prestigious Reith Lectures--Edward Said addresses the ways in which the intellectual can best serve society in the light of a heavily compromised media and of special interest groups who are protected at the cost of larger community concerns. Said suggests a recasting of the intellectual's vision to resist the lures of power, money, and specialization. In these pieces, Said eloquently illustrates his arguments by drawing on such writers as Antonio Gramsci, Jean-Paul Sartre, Regis Debray, Julien Benda, and Theodore Adorno, and by discussing current events and celebrated figures in the world of science and politics: Robert Oppenheimer, Henry Kissinger, Dan Quayle, Vietnam and the Gulf War. Said sees the modern intellectual as an editor, journalist, academic, or political adviser--in other words, a highly specialized professional--who has moved from a position of independence to an alliance with powerful corporate, institutional, or governmental organizations. He concludes that it is the exile-immigrant, the expatriate, and the amateur who must uphold the traditional role of the intellectual as the voice of integrity and courage, able to speak out against those in power.

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Drawing on Julian Benda's famous Treason of the Intellectuals, this book exposes the damaging impact of market-driven ideology on the institution of the University, and calls for a reassertion of the values of knowledge-seeking, democracy and justice.
