The team behind How Google Works returns with management lessons from legendary coach and business executive, Bill Campbell, whose mentoring of some of our most successful modern entrepreneurs has helped create well over a trillion dollars in market value. Bill Campbell played an instrumental role in the growth of several prominent companies, such as Google, Apple, and Intuit, fostering deep relationships with Silicon Valley visionaries, including Steve Jobs, Larry Page, and Eric Schmidt. In addition, this business genius mentored dozens of other important leaders on both coasts, from entrepreneurs to venture capitalists to educators to football players, leaving behind a legacy of growing companies, successful people, respect, friendship, and love after his death in 2016. Leaders at Google for over a decade, Eric Schmidt, Jonathan Rosenberg, and Alan Eagle experienced firsthand how the man fondly known as Coach Bill built trusting relationships, fostered personal growth—even in those at the pinnacle of their careers—inspired courage, and identified and resolved simmering tensions that inevitably arise in fast-moving environments. To honor their mentor and inspire and teach future generations, they have codified his wisdom in this essential guide. Based on interviews with over eighty people who knew and loved Bill Campbell, Trillion Dollar Coach explains the Coach's principles and illustrates them with stories from the many great people and companies with which he worked. The result is a blueprint for forward-thinking business leaders and managers that will help them create higher performing and faster moving cultures, teams, and companies.

This book shows how school leaders at all levels – from the most senior manager to the classroom teacher – can help to build learning communities through collaborating and negotiating with their colleagues, students and students' parents and carers, as well as with external agencies and local communities, to sustain and develop the enjoyment of successful learning among the members of a school. It looks at how positive cultures can be constructed that support inclusive and exciting teaching, enthusiastic teachers and engaged students, parents and carers. Drawing on research, the book examines topics such as the nature of leadership, especially distributed and teacher leadership; the politics of education management; the construction of inclusive cultures in schools; school improvement; and the construction of collaborative and inclusive work groups. It uses a range of critical perspectives to examine processes of change and the relationships of people in school communities to each other and to their social, economic and policy contexts. The book argues that it is essential to develop inclusive education in order to promote student engagement, social justice and equity within formal education. Understanding Educational Leadership is key reading for teachers, headteachers, school leaders, policy makers, Education students and practitioners, and others who have an interest in improving schooling.

Leadership within educational settings is widely regarded as essential for organizational effectiveness and the improvement of learning outcomes. Through an extensive review of theory and practice, Helen Gunter explores the contested field of leadership studies. She describes and critiques the different contributions made by · education management · school effectiveness · school improvement · critical studies. Leadership is examined as function, as behaviour and as leadership relationship, from students as leaders, through to headteachers. The author provides an up-to-date review of current thinking about leadership, which challenges the reader to engage wit
