The current chapter reviews the study's
research method strategy in terms of
research design, data collection
methods and approaches used for the
manipulation and analysis of obtained
data. The chapter sets forth the
approach used in the research that will
allow derivation of meaningful results.

Chapter 3 | Research Prospect

The methods section, or chapter three, of the dissertation or thesis is often the most challenging for graduate students. The methodology section, chapter three should reiterate the research questions and hypotheses, present the research design, discuss the participants, the instruments to be used, the procedure, the data analysis plan , and the sample size justification.
