STUDY GUIDE: Naming & Formulas of Ionic Compounds

For binary ionic compounds (ionic compounds that contain only two types of elements), the compounds are named by writing the name of the cation first followed by the name of the anion. For example, KCl, an ionic compound that contains K^+ and Cl^- ions, is named

Download File PDF Chemistry Naming Ions Study Guide

Answer Key

potassium chloride. This is the currently selected item.

Naming ions and ionic compounds (video) | Khan Academy

In this video, we will name cations and anions to prepare for naming ionic compounds.
