We have a 1999 Winnebago with a Cummins 5.9 ISB engine, in a Freighliner chassis. My oil pressure indicator is in a Freightliner dash assembly, and my guage has no numbers, just an Arc with the word NORMAL. I have no idea what the real pressure is just that it fluctuates anywhere from the bottom of the N to mid range or R.

Concerns over oil pressure indication on an ISB - iRV2 Forums

There was no way to know if the lift pump had failed without a manual pressure gauge. Later, lift pump kits became available to add a "dummy" light to the system which would illuminate if the pressure dropped below 3.5 psi. The ISB engine is still used in many areas, although the 5.9 Cummins can now be replaced by the 6.7 Cummins.

Helpful Cummins ISB information - Diesel-Service-Parts.com

The history of the 5.9 liters ISB engine was ended in 2007. The next engine for light-duty trucks from Cummins became more powerful and technologically advanced the ISB 6.7 - the last engine of B series. Dodge RAM 24 Valve ISB. The ISB engine replaced the old 6BT for Dodge RAM pickup trucks in the middle of 1998.

7 Reasons For Low Oil Pressure in a Diesel Engine. When low oil pressure is detected the immediate response is to think the worst. However, most issues can be resolved with simple solutions. This article explains 7 of the most common causes for low oil pressure in a Caterpillar C7 but the principals can apply to the majority of diesel engines.

7 Reasons For Low Oil Pressure in a Diesel Engine ...

The first generation 6BT (5.9L) 12V engine was produced from 1988 - 1998 and had no casting issues with the block or head. From 1999 to 2002 some 100,000 of the 24v ISB engines stamped with the "53" on the crankcase have been known to be bad castings. Overtime these 53 Blocks are susceptible to cracking causing coolant leaks. The cracks start out very small but these 53 Blocks will ...

Max Allowable Crankcase Pressure - Cummins Marine Forum

It's been about 10thousand miles since my last oil change in my 2009 ISX and I just started getting some low oil readings to. I just changed my exhaust back pressure sensor a week or so ago and that's been helping greatly. When I accelerate or am at cruising speeds of 1200-1300 rpm's my oil pressure is fine, reading about 35-40 psi.
