Dangerous Instincts: How Gut Feelings Betray Us

Gut Feeling 3: "I want to help." While you might think of our gut instincts as something we've maintained mostly to avoid danger, the human species has evolved an equally powerful capacity to sense when our fellow beings need support. "Sympathy is one of humanity's most basic instincts, which is why evolution lavished so much attention on the parts of the brain that help us think about what other people are feeling," notes Lehrer.

5 Gut Instincts You Shouldn't Ignore - Experience Life

When you experience an overwhelming "gut feeling," your body is carrying out a primal response to subconscious information. The ultimate purpose of your gut instinct is to protect you. As your gut instinct is the most ancient and primal "sixth sense" you have, it is the one you can rely upon the most.

When people feel they have something great to lose, when their instincts tell them they are in danger, their gut reacts. It is easy to confuse instinct with intuition because you can 'feel it in your gut'. Literally, a gut feeling is a 'visceral emotional reaction to something'. Fear can be this emotion.

Gut instincts don't always indicate something negative. Since we all originate from the same source, we have direct ties to each other and can sense when someone needs help. We have the powerful ability to read other people's energy by evaluating their facial expressions, body language, or just how we feel around that person.

5 Gut Instincts You Should Never Ignore | Power of Positivity

Either my parent is right, or my gut instincts are. In their vulnerable mind the parent can't be wrong, so they feel it must be them. They learn to ignore their gut or not trust it as a barometer for safety. Swallow their feelings and not express them, even when hurt or upset.

Gut Instincts In Relationships. Always Trust Your Gut!

Gut instincts in relationships. Always trust your gut ...

Feelings from intuition seem to come from the gut, hence the term 'gut feeling,' and there has been serious scientific research about how this works. "When people talk about going with their gut feelings on an important decision, what they're referring to is an intuitive knowledge based on the close relationship between our emotions and the sensations and feelings in the gastrointestinal (GI) tract." 3
