The European agricultural machinery sector is a world leader in supplying enabling technology to the various businesses of crop and livestock farming. With this, AET is part of the value-added chain for food production as well as for the increasingly important production of bio-materials and energy crops.

### **Agricultural Engineering and Technologies Vision 2020 and ...**

Agriculture is the art and science of cultivating the soil, growing crops and raising livestock. It includes the preparation of plant and animal products for people to use and their distribution to markets. Agriculture provides most of the world's food and fabrics. Cotton, wool, and leather are all agricultural products.
