Problem Solving 1. yes 2. yes; 1 3. 37 1 3 4. 1 4 in. 5. B 6. F 7. C

5-7 Indirect Measurement - Greenfield-Central Schools

[Direct measurement measures exactly the thing that needs to be measured, while indirect measurement measures something by measuring something else.] What is an example of each? [Direct measurement may include your height with a tape measure; indirect measurement would be measuring the speed of your car by observing how your speedometer moves.]
