However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results may also be related works with the same title.

Mapping The Womens Movement Feminist

Mapping the Women's Movement charts the development, diversification and politics of movements in the United States and key countries in Western and Eastern Europe, as well as Japan, in order to draw out their wider implications. It shows that feminist political action to change institutions, policy-making and the law has been far more successful in delivering gains to women's lives than was presaged by the early movement's emphasis on personal liberation.
