Mattson Spares - Parts - Spare Parts for Mattson, LAM, ENI ...

OVERVIEW. We design and manufacture wafer processing equipment used in the fabrication of integrated circuits (ICs). Our manufacturing equipment utilizes innovative technologies to deliver advanced processing capabilities and high productivity for the fabrication of current- and next-generation ICs in the following product sectors: Dry Strip, Plasma Etch, Surface Treatment and Ultra-Selective ...

Technology - Mattson Technology, Inc.

Dry strip is the removal of the masking layers from the wafer after the patterning process has been completed. The objective is to eliminate the masking material from the wafer as quickly as possible, without allowing any surface materials to become damaged. We are a leader in the dry strip market. Our strip systems offer...Read More »
