SCM was the first multi language content creator that didn't lock you into predefined 'sources'. With NEXT we refined and improved the content downloading and filtering process to find even more pages in more languages with less junk/spam content.

SEO Content Machine - Content Generator For Any Language ...

TL:DR. If in X++ you have two Query objects on the same table and need to find the records that would be returned by both, you can avoid doing an expensive self-join using ranges and filters.. While conditions on the same table field are combined with a logical OR within a group of ranges or filters, the sets of ranges and filters are combined with a logical AND.

Using filters and ranges in X++ Query objects to avoid ...

It worked fine for selling five or ten products that were mostly ebooks, but as SCM's library grew to 50+ items and included physical products, he hit the limit of the script's capability. He started searching online, hoping to find something that integrated with WordPress — and just as he needed to make a decision, WooCommerce was released and popped onto his radar:
