designed for structure programming, i.e. ST offers predetermined structures for certain often used constructs such as loops for programming. This offers the advantages of low error probability and increased clarity of the program.

Structured Text (ST) - Beckhoff Automation

File Type PDF Structured Text St Programming Guide Book

Structured Text is PLC programming language defined by PLCOpen in IEC 61131-3. The programming language is text-based, compared to the graphics-based ladder diagram or Function Block Diagram. At first, it may seem better to use a graphical programming language for PLC programming. But in my opinion, that is only true for smaller PLC
