potentially dangerous surgery to remove the cataract. Other treatments are now available, specifically, the new Russian breakthrough N-acetylcarnosine. In clinical trials, this treatment has shown dramatic and impressive results in treating age-related cataracts.

The Cataract Cure: The Russian eye-drop breakthrough: The ...

A form of treatment that did not involve surgery would be a useful alternative for people with symptomatic cataract who are unable or unwilling to undergo surgery. If an eye drop existed that could reverse or even prevent progression of cataract, then this would be a useful additional treatment option. Cataract tends to result from oxidative stress.

N-acetylcarnosine (NAC) drops for age-related cataract

Doctors say if you live long enough, it's not a matter of if you develop cataracts; it's a matter of when. Dr. John Snead, an

Cataracts: There is a Cure - YouTube

Ultimately, Cataract Surgery Is the Only Cure. When you are diagnosed with cataracts, your doctor will not immediately send you to surgery unless your cataract is very advanced. Instead, you will be monitored in regular eye exams until your vision becomes too difficult to correct with glasses or contact lenses.

Can You Cure Cataracts Naturally Without Surgery ...

Cataract surgery increases the risk of retinal detachment. After the procedure, you'll have some discomfort for a few days. Healing generally occurs within eight weeks. If you need cataract surgery in both eyes, your doctor will schedule surgery to remove the cataract in the second eye after you've healed from the first surgery.

Could these new eye drops cure cataracts? | PBS NewsHour

Conventional Treatment for Cataract
Symptoms Early cataract symptoms can
be improved with the use of new
prescription eyeglasses, brighter
lighting, anti-glare sunglasses and
magnifying lenses. Conventional
medicine says that cataracts don't go
away on their own, but some cataracts
develop to a certain point and then stop.
