VMware ESXi 5.1 Cookbook is a recipe-based guide to the administration of VMware vSphere I've been working with VMware products for a number of years now and this book looked like a beginners guide. I was also a little disappointed that the book was based on vSphere 5.1 and not the most current release vSphere 5.5 even though the current release of vSphere was out 6 months before the book. Who is the book for?
