The Fourth Wave — High Country News - Know the West

In the 1940s, uranium mining led to the establishment of several mill towns in Colorado, dubbed “yellowcake towns” because the uranium powder they produced—uranium oxide—resembled cake mix. Union Carbide Corporation built a town around an old Standard Chemical mill and named it Uravan, a hybrid of “Uranium” and “Vanadium.”

Uranium Mining | Articles | Colorado Encyclopedia

Yellowcake, processed uranium ore, not only impacted these towns' economies but also transformed their landscapes and images. This analysis examines the interplay of changing federal policy, the uranium industry, and the four communities by comparing two company towns--Uravan and Jeffrey City--against the two independent ones, Moab and Grants.
